

REMINDER

- Make sure your child's face and hands are thoroughly clean prior to entering the daycare centre. A wet wipe and a good rub should be sufficient. If [ALLERGEN] has come in contact with your child's clothes, it is necessary to give him/her a fresh change of clothes.
- Do not put clothes that have been contaminated with [ALLERGEN] in your child's backpack. Even dry [ALLERGEN] residue can cause a severe reaction.
- Do not send food with your child and make sure that he/she has completely finished eating and wiped hands and mouth prior to entering the centre.
- Ensure that your child's backpack and other items like shoes, hats, etc. are free from [ALLERGEN] residue.
- [IF YOUR CHILD IS ALLERGIC TO SPECIFIC INGREDIENTS THAT ARE COMMONLY USED IN LOTIONS YOU CAN ADD] If you use baby lotions, creams, or other cosmetics on your child please make sure that it is free from [ALLERGEN] ingredients. Many sunscreens & baby lotions for example use [ALLERGEN] as part of the product base.

Remember, it's our goal to keep all children safe. We appreciate your cooperation and wish you a great school year.
